Technology 4 Human Development

Summary Presentation

Humanity needs to realize that only by truly understanding our interdependent nature will we be able to solve the challenges we face

Technology

Is the tool capable of transforming our reality

Purpose

Is the light that will guide us in the right direction

MOTIVATION

Technology has transformed humanity in a wide variety of ways.

Still, the majority of these technologies have been at the heart of big organizations which have the resources needed to take advantage of these tools enhancing their objectives.

Organizations operating within the social responsibility and solidarity context have not been able to use technology in the same way.

Although technology has dramatically increased communications and awareness to support these organizations. The application of technology in order to maximize their efficiency and productivity is almost non existent in the majority of cases.

Relying on intermittent funds and volunteer work becomes a very hard task to support in a long term, with high impact structural changes. Many of these organizations loose their operational capabilities and, as a result, their motivation to keep moving forward with their purposeful mission.

VALUES & MISSION

Tolerance

Respect

Honesty

Justice

Equality

Trust

Contribute

Resilience

MISSION – To support the creation of appropriate conditions that will enable the existence of a society model that is sustainable, equal and collaborative.
Our mission is to provide the technological tools that will unleash Human Potential.

T4HD is a Social Enterprise focusing on providing support for existing and new organizations that share common goals.

T4HD DEFINED

Provider of shared technology driven services to organizations that do not have the resources and knowledge needed to set up and run IT driven solutions to support their critical mission operations with positive outcomes to Humanity.

Focusing on:

| Resource management | Local Economy | Energy & Logistics | Education | Environment & Sustainability | Social Inclusion |

OBJECTIVES

Make technology work for **EVERYONE**

SUPPORT local industry and services ecosystem

Regenerate **HUMAN** resources for a new age of work

Convert companies to operate **SUSTAINABLY**

Create conditions to keep people in their **HOME** town

Enable **TRUST** and cooperation between Social & Economic communities

VISION

Technology has been the engine of innovation in a cultural context that nurtures solutions of business relevance. This situation conditions entrepreneurs to focus exclusively on ideas that generate business value.

T4HD's mission is to ensure that organizations that choose to generate social value are supported by a organization that will allow them to maximize their impact, collaboration and sustainability for the future to come.
